Pending the discussion of which the House adjourned.

WEDNESDAY, June 20th, 1866. Mr. Grissom introdoced a resolution providing for morning sessions from 8 to 2, and in the evening from 4 o'clock -. The resolution was adopted. THE SPECIAL ORDER,

Being an ordinance regulating commissions on freight by railroads and express companies. Mr. Settle, remarked that express companies, under their contracts with the railroads, had grown into monopolies, owing to their exorbitant rates of transportation.

Mr. Moore, of Wake, moved to amend so as to make this ordinance subject to legisla-

Mr. Ward addressed the Convention in favor of the ordinance, setting forth the dangerous tendencies of express companies to run into monopolies to the oppression of the public. He showed that Virginia had been forced to legislate upon this subject in order to protect her citizens.

Mr. Boyden said that he would vote against the ordinance; and that he knew of no exclusive privileges granted to any com-pany by the N. C. R. R. except to a telegraph company, which had been remedied.

Mr. Settle said that the difference in the State more money than they would pay in takes to the State. Mr. Settle proceeded to show further the workings of the present When, Mr. Allen, moved to fix the penal-

being recorded.

Mr. Love of Jackson, moved to amend by providing that it shall not apply to works of internal improvement hitherto chartered. Lost, yeas 25; nays 36.

Mr. Furches moved to substitute the language of the original ordinance for the report of the committee. Pending the discussion the Convention adjourned.

# Proceedings of Congress.

WASHINGTON, June 18-SENATE.-Mr. Harris presented the petition of New York banks, asking an extension of time on the tax on circulation. Referred to the Committee on finance.

The President, in response to a resolution of the Senate, transmitted a communication from the acting Secretary of the Interior to that body respecting transactions for colonization, transportation, &c., of negroes. The report was made March 7th, 1864, showing that upwards of thirty-three thousand dollars had been expended, which was augmented by a supplemental report to 37,361 dollars. Report further says that the act of 1862, under which this act was done, was subsequently repealed, and no other measure of a similiar character has since been passed by Congress.

The Senate Finance Committee reported a tax bill reducing the tax on cotton to two ncets per pound.

House.-Mr. Sterns offered joint resolutions proposing an amendment to the Constitution giving Congress power to lay an export duty on cotton. He refused to allow debate, and pressed the measure to a vote, hoping to get it passed by a two-thirds vote. The resolution was rejected; yeas 59, nays 61.

Mr. Bingham offered a resolution, which was passed, requesting the President to transmit the Reconstruction Committee and Constitutional Amendment, lately adopted by Congress, to the several States for ratifica-

was agreed on for the time of holding said Fair,—the public to be notified of the precise day, after the next meeting, to be held in Henderson, on the second Saturday in

July.

Much determination was evinced in the meeting, to have an exhibition equal to those held heretofore, in spite of all adverse circumstances. It was ordered that the Secretary furnish the the Daily Sentinel with copy of the proceedings, and that the Daily Progress, Standard, Weldon State, and Louisburg Eagle, be requested to copy.

COST OF EXPATRIATON .- That class of Rebels who emigrated to Mexico in order to save themselves from the humiliation of living under "the Yankee Government," are having a rather rough experience. When they first arrived in Mexico they found that the country was anything but a delightful place of residence, and every day since that time has confirmed their first impression. In addition to the many discomfitures experienced by them, as hitherto noticed, we yestesday published an account of the capture of a large number of them by the Liberals. Nor is that the extent of their misfortune. The Liberals, appreciating the fighting qualities of the ex-Rebels, determined to impress them into the army of Juarez, and by this time they are probaly carrying muskets in company with greasy and half civilized Mexican guerrillas. It seems, therefore, that the Rebels who went to Mexico have paid dearly for their whistle. They have absented themselves from their kindred and friends; they have lost about everything that they are now compulsory soldiers in a mongrel army.-The thing for them to do is to return to the United States as quickly as they can, settle down quietly to useful occupations, and teach there children to love and reverence the flag of their country .- [ N. Y. Sun.

A calculation has been made on the basis of the canvass and Presidential vote of 1860. of the operation of the proposed change in the basis of representation of the rebel States. According to it, Alabama will loose three; Arkansas, none; Florida, none; Georgia, three; Louisana, two; Mississippi, three; North-Carolina, three; South Carolina, four; Tennessee, three: Texas, none, and Virginia. three members, or a total loss of twenty-three. If they exclude male citizens under twentyone years of age from the right of suffarge rates charged between the railroads and express companies, would allow the latter and be one in Missouri, one in Maryland and in the loyal border States, the loss would continuity to extort from the people of this colored population since 1860 may this aggregate loss of twenty seven in the slave-holding States up to thirty, the number intended by the Reconstruction Com-

REASONS WHY AMERICAN WATCH Made at Waltham, Mass.

IS THE BEST. IT IS MADE ON THE BEST PRINCIPLE. Its frame is composed of SOLID PLATES. No jar can interfere with the harmory of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effeetiveness) and is therefore properly made. The watch is what all mechanism should be-ACCU-RATE, SIMPLE, STRONG AND ECONOMI-CAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres." "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than thoroughly good low-priced watch for the million, to take the place of these foreign impositionsthe refuse of toreign factories-which were entirely unsaleable at home and perfectly worthless

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the same money our product is incomparably superior. All our watches, of whatever grade, are fully warranted and his warrantee is good at all times against us or our agents in all parts of the world.

CAUTION .- The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

CARD. BECAUSE OF AFFL CTION AND AGE, which renders me incapable of continuing business, I now retire from the Book trade, leaving my entire stock and interest in the hands of Messrs. Branson & Farrar, except the publication of the "N. C. Almanae," which I trust will be received with the same favor as heretofore. In retiring, I return my sincere thanks for the very liberal patronage which the public has chosen to bestow upon me during the last half century—the length of time which I have been engaged in this State—and cheerfully recommend

Mr. H. D. Turner, who, for thirty-three years past, has been a large publisher and bookseller, now retires from active business, leaving his entire stock in our hands. The stock consists of an extensive selection of English and American Law Books, besides a great variety of School and Miscellaneous Books. Mr. H. D. Coley, so long Mr. Turner's representative, will still be found at the old stand.

With this valuable addition to our former extensive stock, we hope very greatly to enlarge our usefulness to the trade. We will use our best efforts to secure the continued good will of our old customers, and those of the North-Carolina Book Store.

COPY RIGHT SECURED. "A CALENDAR FOR THE CHRISTIAN Era, combining the Julian and Gregorian modes of reckoning time, by James Rumley, of N. C." The subscriber having copy-righted this most valuable of all the "Calendars" ever before offervaluable of all the "Calendars" ever before offered to the public, will be prepared in a few days to supply the demand for them to any extent.

Many attempts have been made, from time to time, to secure a Calendar, by which all the dates of the Christian Era could be accurately, and at the same time readily, found. These attempts have heretofore signally failed because the authors have sought to condense too much, and because they were really not conversant with the subject of which they treated, and which they vainly endeavored to elucidate.

I claim for the Calendar, now presented, perfect simplicity of arrangement, combined with the most infallible accuracy. The plan is so simple most infallible accuracy. The plan is so simple that any one who can use an ordinary Almanac, or Counting House Calendar, cannot fail to see clearly into the working of this. Time past, present or future can be immediately found. Its accuracy will bear the test of the most rigid scrutiny. I invite criticisms, and confidently appeal to an callghtened public judgment for a frank expression of opinion as to its merits.

To supply a want long felt, the author has appended to the Cafendar, under the head of "Explanatory Remarks," a succinet, but most valuable history of the Julian Calendar from the time of Julius Cæsar, and of the astronomical causes which led to the change made by Pope Gregory XIII, in 1582. These notes alone are worth the price of the Calendar. If any object to the space the Calendar occupies, the objection is answered by the reply that any attempt at condensation would be a sacrifice of simplicity, the fatal rock on which every previous attempt has been stranded.

Every professional man, every mechanic and farmer, all merchants and tradesmen should supply themselves with copies at once. Price \$1.
